

# DREW LIPINSKI

## About Me

Graphic designer skilled in multitasking diverse projects in a fast paced deadline driven environment. 9+ years experience using adobe creative suite to design a wide variety of deliverables. Experience managing large print projects from conception to execution including the Joliet Chamber of Commerce street light banners for six years and Argonne National Laboratory Polaris super computer wrap.

## Experience

### Graphic Designer *Signs By Tomorrow Plainfield* Nov. 2015-Current

- Manage deadline driven projects from concept to print with Corebridge software.
- Design various signage and marketing materials for clients in Adobe Illustrator, Photoshop, and Flexisign.
- Utilize strong typography skills to form effective informational hierarchies.
- Collaborate with marketing teams and business owners to achieve creative solutions.
- Load print files into Onyx rip queue software.
- Operate large format HP 360 printer and Summa plotter.
- Assist in signage and graphic assembly and finishing.
- Install signage and vinyl graphics in shop and on locations.
- Collaborate with wholesale vendors to ensure quality and production deadlines are satisfied.
- Assist in quoting projects and educating customers about what materials and various signage solutions best fit their needs.

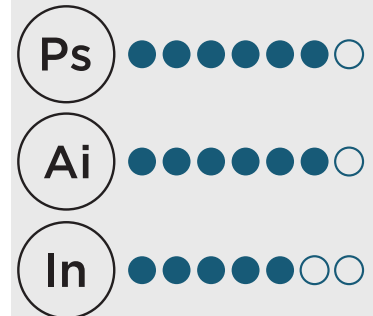

### Graphic & Layout Editor *Monmouth College Courier* Aug. 2013-May 2015

- Worked with a team of six section editors to produce weekly publications.
- Designed all graphics and advertisements for newspaper in Adobe Illustrator and Photoshop, then arranged all graphics in layout in InDesign
- Designed layouts in collaboration with section editors each week and reviewed and approved all layouts before final approval by Editor-in-Chief.
